

A Get Out The Vote

Tool Unlike Any Other.

**CONCORD
PROJECT**

Unions and other special interests are spending hundreds of millions of dollars to keep Big Government politicians in office.

An idea conceived by former union activists, and put together by bloggers and activists, the Concord Project is an online tool designed for hard-working Americans to learn GOTV basics, as well as to serve as a hub for individuals, activists and groups to collaborate and coordinate their GOTV efforts.

Based on a wiki platform, the Concord Project gives individuals, activists and groups a place to post events, coordinate GOTV efforts, as well as comment on specific candidates and issues.

The Concord Project is a tool for the people to take back politics from the ruling class.

Put the Concord Project to use.

Then, on November 2nd, remember GOTV.

Fighting for Freedom in the Fall.
